**IPLOCKS EXPANDS WORLDWIDE PRESENCE IN ASIA PACIFIC REGION**

*IPLOCKS Partners With Industry-Expert, Decillion Solutions*

**SAN JOSE, Calif. – APRIL 26, 2005** – IPLOCKS™, the leading provider of enterprise information risk management solutions, today announced that they have entered into a reseller agreement with Decillion Solutions Group (an NEC Company) in Asia Pac.

Decillion's expertise is in providing security-focused software solutions to financial institutions in Singapore, Malaysia, Indonesia, Thailand, Australia, Hong Kong and Korea. They required a comprehensive database security solution focusing on user behavior monitoring and analysis, auditing and vulnerability assessments to complete their product offering and strengthen their security expertise. Decillion's first deployment of the IPLOCKS solution is at an insurance company in Korea.

"We looked for similar products and found IPLOCKS to be unique," said Helen Chua, Regional Director at Decillion. "Financial institutions need to have precise information about who is accessing the data. IPLOCKS is the only product that monitors user behavior, which is key to detecting and alerting on suspicious and malicious activities. Until now, customers were unable to monitor their databases. They knew this was important but couldn't find the right product. The IPLOCKS Information Risk Management Platform

allows our customers to be proactive in preventing and deterring incidents before they occur.”

“Partners like Decillion are integral to our growth in Asia Pacific,” said Akio Sakamoto, President, CEO and Co-founder of IPLocks. “Our channel partner program addresses the unique needs of security and database security resellers and helps them to differentiate themselves. We draw upon our comprehensive Information Risk Management expertise and provide a customer-centric marketing and support program to help our partners succeed in achieving their revenue goals.”

### **About Decillion Solutions Group**

The Decillion Solutions Group is headquartered in Singapore with offices in Bangkok, Kuala Lumpur, Shanghai, Sydney and a representative office in Jakarta. Decillion Solutions is a niche banking IT company with a sharp focus on providing 'best of breed' banking applications, SWIFT Service Bureau, Payment Systems, Trade Processing and 'Straight Through Processing' (STP) solutions to financial institutions in Asia Pacific Region. For more information, visit [www.decillion.com.sg](http://www.decillion.com.sg).

### **About IPLocks**

IPLocks, Inc. protects business continuity, safeguards company brand reputation and eases the pain of corporate governance by securing critical information assets from negligent and malicious acts. The IPLocks Information Risk Management Platform alerts management to information risks from security and business policy violations, attacks on data, compromised structural integrity and information theft, which other security solutions fail to detect. IPLocks secures business critical data for financial services, telecommunications, media services, healthcare, public utilities and other industries. Founded in 2002, San Jose, California-based IPLocks is a privately held global corporation with customers throughout North America, Asia Pacific, South America and Europe. For additional information, visit [www.iplocks.com](http://www.iplocks.com).
