**IPLOCKS TO SHOWCASE INFORMATION RISK MANAGEMENT
PLATFORM AT TECHNOLOGY FOR COMPLIANCE EXPO**

SAN JOSE, Calif. – March 16, 2005 — IPLOCKS™, the leading provider of enterprise information risk management solutions, today announced its participation in the Technology for Compliance Expo to be held March 16-17, 2005 in London. IPLOCKS is exhibiting with BMC Software in stand #704.

“Enterprises today are at a crossroad when implementing information risk management,” said Akio Sakamoto, President, CEO and Co-founder at IPLOCKS. “The IPLOCKS Information Risk Management Platform is built on the fundamental principals of protecting brand equity, maintaining business continuity and improving corporate governance. With IPLOCKS, organizations are confident that their business critical information is private and secure.”

The Technology for Compliance Expo addresses IT solutions for the fastest growing market for IT spending - regulatory compliance. This event highlights the key areas of regulatory compliance: Corporate Governance and Accountability, Financial Regulation, Data Protection and Privacy, Consumer Protection, and the Public Sector.

The IPLocks Information Risk Management Platform utilizes an advanced learning of baseline activities and real-time notification of variances, reducing the time and resources required to monitor data access. This secures critical information from negligent and malicious acts and manages risks by alerting and reacting to threats. The IPLocks platform provides organizations with transparency in governance, compliance and incident reporting to help minimize enterprise risk.

About IPLocks

IPLocks, Inc. protects business continuity; safeguards company brand reputation and eases the pain of corporate governance by securing critical information assets from negligent and malicious acts. The IPLocks Information Risk Management Platform alerts management to information risks from security and business policy violations, attacks on data, compromised structural integrity and information theft, which other security solutions fail to detect. IPLocks secures business critical data for financial services, telecommunications, media services, healthcare, public utilities and other industries. Founded in 2002, San Jose, California-based IPLocks is a privately held global corporation with customers throughout North America, Asia Pacific, South America and Europe.
