IPLOCKS Closes Additional \$4.4 Million in Strategic Funding

SAN JOSE, Calif., Aug. 23, 2006 – IPLOCKS™, a leading provider of database security and compliance solutions that protect business critical information, today announced it has secured an additional \$4.4 million in funding from institutional and individual investors as a result of over-subscription to its recent Series D round of funding.

“IPLOCKS was founded on the belief that protecting sensitive data in company databases is crucial for business survival,” said Akio Sakamoto, President, CEO and Co-founder of IPLOCKS. “We are pleased to see that investors realize the value of the IPLOCKS offering and are validating the opportunity for this market by investing in IPLOCKS.”

IPLOCKS is the only comprehensive database security solution that assesses for vulnerabilities, monitors user behavior and provides an independent audit trail to support regulatory compliance. The IPLOCKS solution also supports the widest range of database platforms including IBM DB2, Microsoft SQL Server, Oracle, Sybase and Teradata.

About IPLocks

IPLocks, Inc. is the leading provider of database security and compliance solutions. The company works with enterprises, service providers, and solution providers worldwide to protect critical information assets from negligent and malicious user threats, to manage database security policy vulnerabilities, to ease the pain of compliance and to protect privacy. San Jose, California-based IPLocks is a privately held global corporation with customers throughout North America, Asia Pacific, South America and Europe
